The Confucius Institute classroom at Portage Northern High School [1] provides Chinese cultural lessons on a variety of topics.

We are always invited to different classes to present Chinese history, Chinese philosophy, Chinese food, Chinese government and related policies. In order to attract more students, we have run a Chinese Club every Tuesday after school to introduce Chinese calligraphy, Chinese Chess, Paper-cutting, Taichi and Kongfu and other part of Chinese culture. Now we are
working on developing after school Chinese language program to offer more chance to study Chinese for high school students.

Meet our teachers [2]
